ABOUT ME

Hello!

My name is Aliaksandr.

I am a BackEnd developer (Node.js, React) with experience in JavaScript, TypeScript, NodeJS, NestJS, Express, Microservices, RabbitMQ, Docker, PostgreSQL, MongoDB, various ORMs, and familiarity with React, Redux, HTML, and CSS.

I am eager to join your team to further develop my skills and create useful and interesting products. My main priorities are code quality, efficiency, and reliability of solutions.

My professional experience includes developing microservices and monolithic web applications, as well as working in teams where I could demonstrate my communication and collaboration skills.

I am ready to contribute to your company's projects by offering innovative and efficient solutions while striving for continuous professional growth.

I am looking forward to collaborating and hope to meet with you soon!

Best regards, Aliaksandr.
